How Can Legal Nurse Consultants Help Me?

Recognizing that your time and resources are invaluable, Legal Nurse Consultants, <http://www.lnclocator.org/>, remove the strain and time constraints of your extensive medical research. As licensed Registered Nurses, Legal Nurse Consultants bring specialized healthcare education and clinical experience to the medically related issues of the litigation process. This education and experience distinguishes Legal Nurse Consultants from paralegals and legal assistants and provides the foundation for the Legal Nurse Consultant's ability to examine, recognize and interpret all relevant medically related information in a claim or case.

Legal Nurse Consultants are experts in evaluating, analyzing and explaining the injuries asserted as a result of a potentially work related incident, as well as the treatment and the impact of these on the client's life. For more than 20 years, Legal Nurse Consultants have acted as collaborators and strategists, offering support in medically related litigation and other medical-legal matters to aid in numerous aspects of your cases.

What Lawyers Are Saying about AALNC Members

"Our firm has employed an in-house Legal Nurse Consultant for many years now. She works with our many attorneys on multiple issues and practices. Of particular interest to my practice is the work she does on the Worker's Compensation files. She has been invaluable in recognizing the areas of strength and weakness of the cases from a medical perspective.

She helps me to fine tune deposition strategy when needed and provides an exceptional advantage in her role in identifying, retaining and working with the medical experts. Our Legal Nurse Consultant is able to digest, interpret and clarify voluminous medical records and provide key illustrative medical evidence when needed. She is able to accurately evaluate the pathological processes and issues of alternate causation. As a nurse, she understands the role of the case manager and issues of catastrophic injury. It has saved our firm immeasurable time and money to have a Legal Nurse Consultant working on the Worker's Compensation files. I have found our clients are equally impressed to know I work with a Legal Nurse Consultant on their case."
